GBBT 2
(Glass Bottle Burst Tester)

EXPLOSION TESTER FOR GLASS BOTTLES - DUAL STATION

The GBBT is an instrument for testing the resistance to pressure in glass containers.

Designed for easy operation and maintenance, and fully conform to tests requirements according to international standards.

The pressure test of containers is made up to a predefined pressure point (trial test) or until destruction.

GBBT BI-POSITION

Characteristics :
- Two positions (available in single-position)
- PLC / PLC integrated
- Automatic clamping system
- Autofill
- Doors secured during testing
- Output RS 232 C
- Touch screen LCD

Technical data :
Measuring range: 0-57bar
Resolution: 0.1 bar
Power: 115 V / 230 V, 50-60Hz
Dimensions: 830 × 580 × 1600mm (L x W x H)
Weight: 120 kg
